

**Don't let your fruit  
go to waste!**

**Village Harvest** volunteers help tree owners share their fruit with food banks. Your fruit can be healthy food for people in need instead of going to waste or becoming a nuisance.

**Share your fruit!**

If you have a large amount and are physically unable to harvest, our volunteer teams may be able to pick it for you.

If you have a smaller amount or can pick it yourself, we'll help you learn how to pick and donate your fruit to a food pantry. Visit [villageharvest.org](http://villageharvest.org) or call for easy ways to harvest and locations where you can take your fruit.

**Volunteer!**

Have fun while making a difference for thousands in only a few hours of your time.

**To offer your extra fruit or to volunteer, visit  
or call:**
